

SCHOOL OF SOCIAL SCIENCES GRADUATE SEMINAR

Gianluca Esposito

Nanyang Assistant Professor

PI - Social & Affective Neuroscience Lab

An Unconventional Academic Career Path

This session will be an open dialogue with Gianluca Esposito about career choices and unconventional academic career paths. Gianluca (Nanyang Assistant Professor, Psychology, Social Sciences, NTU and PI of the Social and Affective Neuroscience Lab) is a Developmental Neuroscientist qualified to advance the ongoing investigations of Social Interactions (e.g. parent-child attachment; romantic bonding, etc.). His specialties lie in neuroimaging (fNIRS; fMRI) as well as physiological measurements (ECG, EMG) and genetic analyses (SNPs, GWAS). His work has produced more than 100 publications, and it has been recognized several times by a number of agencies from Europe, Singapore, Japan, USA and UAE. Gianluca has a joint appointment as Associate Professor with the University of Trento, Italy and serves as Co-Chair of the International Affairs Committee of the Society for Research in Child Development. He is in the Editorial board of several journals and scientific committees. Before joining NTU, he has worked with the RIKEN Brain Science Institute (Japan) and the National Institutes of Health (USA).
